# THRESHOLD GRADUATES 1990

Jonathan Bernstein

During my two-year stay at Threshold, I have learned a lot of new things about myself. I've learned to work harder at my studies, plus I've made a lot of friends. Most importantly, I've learned to be more independent.

There are a lot of people I wish to thank. First of all I want to give a thumbs-up to all of the teachers at Threshold. They have always helped me when I needed it the most. Next I wish to thank my roommates, Marty, Chris, and Paul, and my best friend Devin Meyer, who has been there for me when I needed it most. Last I want to thank my resident assistant Maureen McCarthy who has helped me solve problems. She is a special person. When I leave here, I will always remember her, as well as all the staff and friends I've made here.

Pamela Beuerlein

Being at Threshold helped me to learn more about my learning problem. I never really noticed that I have a learning problem until I came to this program. Threshold has helped me to become more independent. I feel more confident now about doing my homework and getting it in on time. I have a lot of good memories of Threshold. I would like to thank Jane Carroll, Arlyn, and the rest of the staff for helping me get through this program.

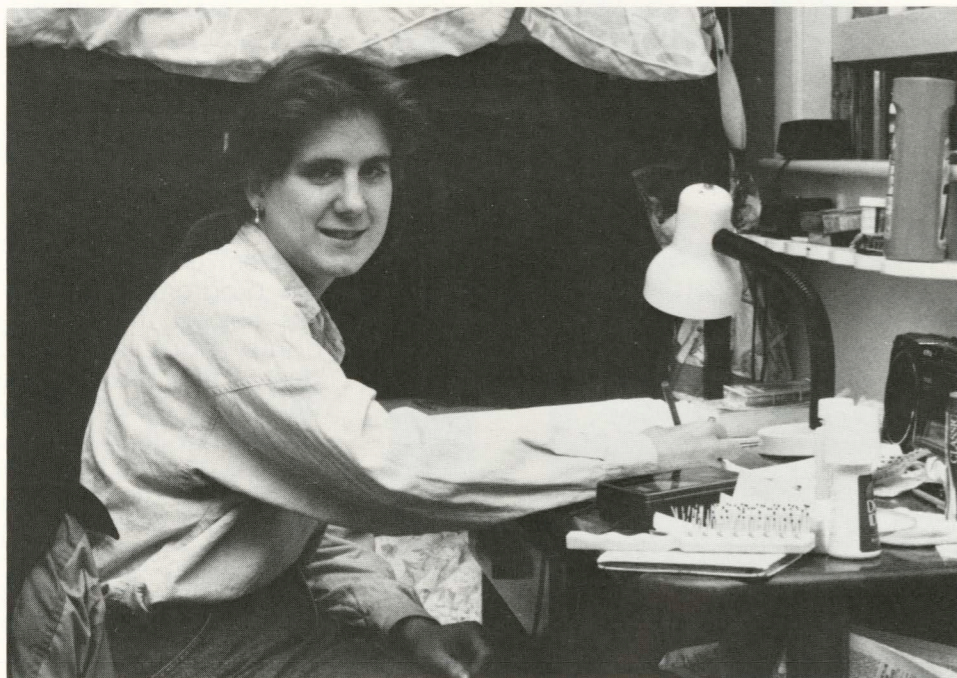

## THRESHOLD GRADUATES 1990

Kimberly Bidwell

Threshold made me grow independent with my life. It taught me how much friendship means to me and how important it is to me to stay friends with the people I met here. Threshold is a great place.

I want to thank the staff and the teachers. The teachers have a lot of patience. The classes that helped me the most were Sexuality, Medical World and Apartment Living. I want to thank my roommates for being there for me. I really love them for the late night talks we had. My special thanks go to my parents, sisters, Kyle, Johnny, Hillary, Jason, Graham, and Jacqueline Surmeier.

Marie Brouillette

My two years at Threshold have helped me become more independent and less likely to rely on my parents as much as I used to. I thank the staff for teaching me the important things I need in life.

I would like to thank my roommate Kathy for helping me out in my job as dorm assistant. I will miss joking around with her and our after-dinner walks together. Also, I'd like to thank Jon for the support he has given me. I will miss all the friends that I made, especially Kim Dobbie, Susan, Jacqueline Surmeier, Kim Bidwell and Hillary.

To all the first-year students: Good luck next year. I will miss you. Thanks to my family for all their support. Good-bye, Lesley College and Threshold. I will miss you.

Jennifer Campana

Threshold has helped me a lot in my two years here. I've made many friends here and one very special one. My first year here, I had a rough time adjusting, but as the year went on I became more comfortable. This program also taught me how to be independent.

I want to thank all the teachers and my tutor. They helped me make it through. I'd also like to thank the friends I'll always remember (Karen P., Paul, Kim D., Jodi, Marty, Lisa, and Alisa), my family for fighting for me through the years and being very supportive, and Chris Korman who has always been there. I love you all.

Never give up on dreams, because they'll come true.

Hillary Cantwell

Threshold was different than I expected it to be. When I first came here, I thought that having a lot of free time would be hard for me, but I quickly learned how to plan my time. Now, as a second-year student, I'm more open to people. I'm also more relaxed about going to work than I was last year.

I'd like to thank all the Threshold teachers and Janet, Suzanne and Arlyn. I have grown quite a bit since I came here. I'd like to thank several of my friends - Jacqueline Surmeier, Susan, Marie, Jon, Lee, Devin, and Kim D., for being there when I needed someone to talk to or to go to work with. I would also like to thank all of the other students. A special thanks to Kim Bidwell. I've know her for so long that I'm surprised that we haven't blended into each other! I will miss our late-night talks.

I will miss everyone I've met here, but I know it's time to go on to bigger and better things.

Nicole Chitayat

Threshold has been a very special place for me. The first year things were tough, but I learned a lot about myself. My second year I have felt more secure, even when I've had my ups and downs.

I would like to take the time to thank my parents for all that they've done for me and for sending me to such a wonderful program. I also want to thank the teachers at Threshold who taught me the important things that I need to know for my future. I won't forget any of you.

I have made a lot of friends at Threshold. I want to thank Jodi, Marie, Kathy K., Kim D., and many more. I also want to thank my roommate Pam and one very special person, my boyfriend Miguel. He has been very patient in the hardest of times. I wish all the first-year students the best of luck in their second year and after they graduate. Well, before I close off, one more really big thank-you to Arlyn, Suzanne and Janet.

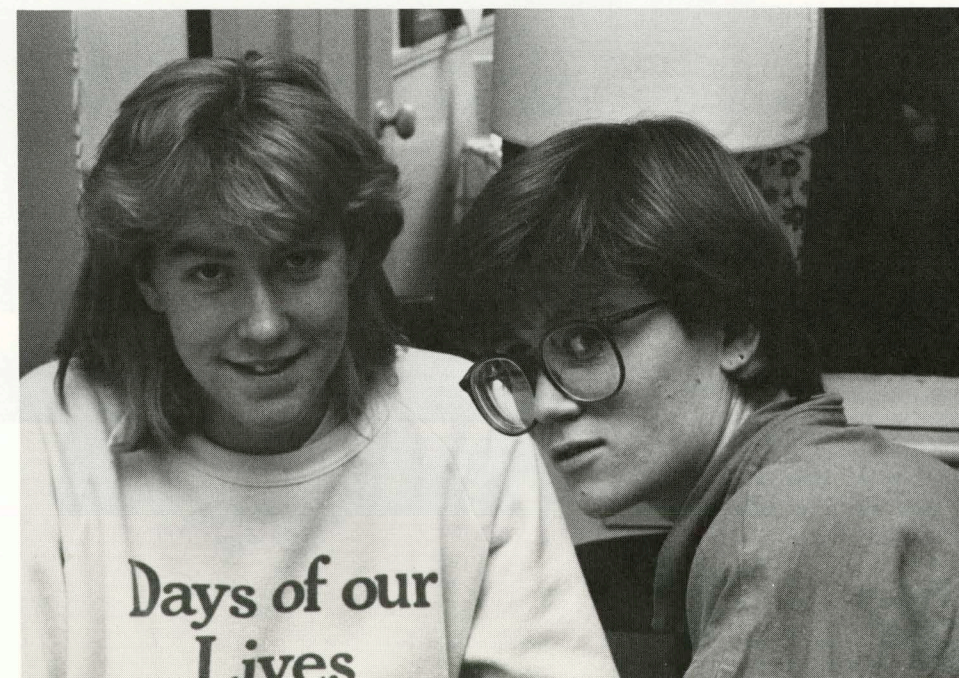

Kimberly Dobbie

These past two years at Threshold have been very helpful to me. During my first year, I learned how to work with the elderly and young children. It was very interesting working with the elderly, because they would tell me about their relatives and things that they did when they were young. When I was placed with children, I always looked forward to going to work. My second year, I learned more about how to be independent, especially by living in an apartment for three weeks with another person as part of the Apartment Living Course. Dormitory living for two years was a great experience. I had so much freedom in my leisure time.

I met a lot of great people over my two years at school. I would like to thank Kathy K., Marie, Susan, Jacqueline Surmeier, Karen P., Jennifer C., Paul, Marty, Shelley, and Karen M. for everything they've done for me. You are a great bunch of people. I'll never forget you.

I'd also like to thank my family for putting up with me for the nineteen years of my life. You guys are the best. I love all of you very much. I'd also like to thank Amy Robarge and Kelley McCabe for helping me out this year.

Jodi Lynne Hollander

I want to thank all the teachers here at Threshold for teaching me a lot. Threshold has taught me how to be on my own. The first day of school last year I was scared and nervous, and I even cried. This year on the first day, I was with my friends and we were laughing. I didn't even cry when my parents left. I will miss my friends here at Threshold. I hope we can keep in touch. I want most of all to thank my parents for giving me their support.

To my friends Kim D., Nikki, Karen P., Marty, Lisa, Paul and all the others: "We did it!"

Lisa Hurwitz

To Arlyn: I thank you for helping me straighten out my act last year. You really helped me improve myself.

To all my teachers: thank you very much for teaching me the skills I need to be an adult in the real world.

To my boyfriend, Marty: I wish you the best after graduation because you deserve the best.

To the first-year students: I wish you the best when you become second-year students and hope you help the new first-year students out. Good luck. I will visit.

Kathryn Kenny

Being at Threshold for two years has helped me understand my learning disability. I've learned a lot from living in Boston and being on my own. Living in the dorm has been an awesome experience for me, and my roommates have been great.

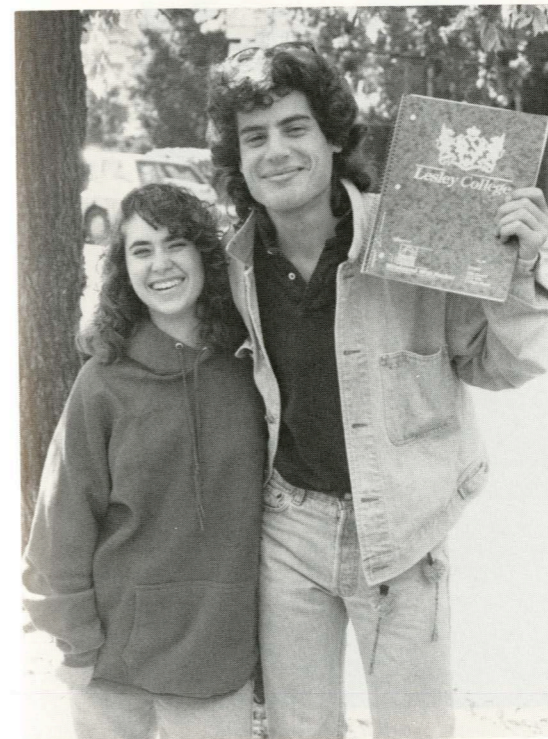

I would like to say thank you to my good friends, Marie, Susan, Kim D., and especially Marty and Jon who have been there to talk to me when I needed a friend. I would also like to say thank you to Mom, Donna, Alison, and Ann. Best wishes to Kate! Dad, I love you very much, and I miss you!!

Paul Krinsky

I'd like to thank the Threshold staff for helping me grow as a person and for helping me with my studies here at school. I have learned a lot about myself here. I have made lots of friends, especially Karen P., Jennifer C., Alisa, Jodi and Kim D. I thank them for putting up with me for the past two years. I also thank my family a lot for their support.

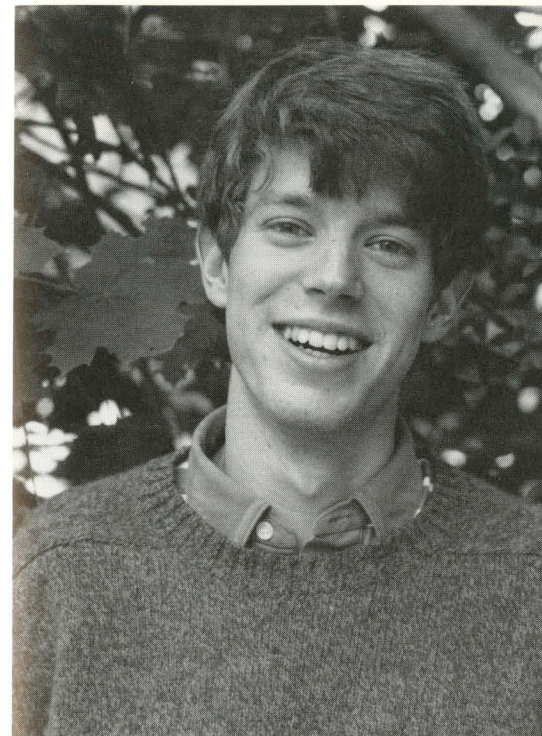

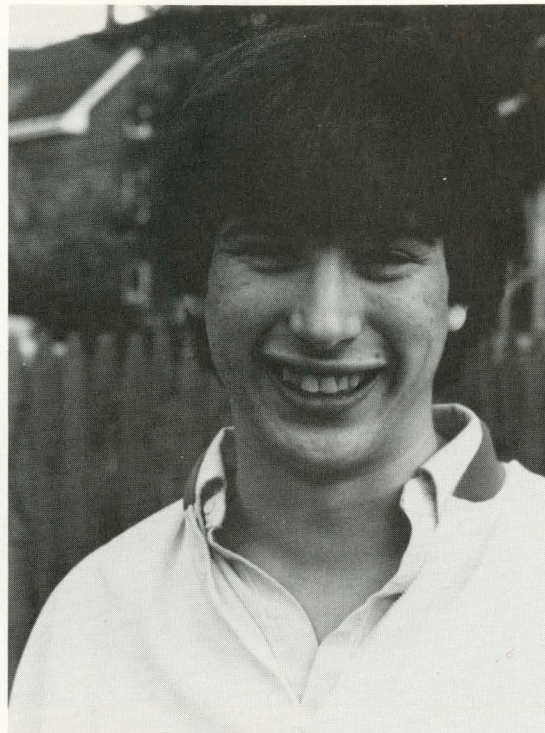

"Smile, smile, smile.  
We will all get by"  
By The Grateful Dead

Martin Labinger

I just want to thank all the teachers at Threshold for their help, especially Barbara, Janet, Fran O. and Jane for being understanding of me, and for taking the time to help me by giving me advice on personal and school problems. I would also like to thank my parents for letting me come here.

I've really enjoyed Threshold. When I graduate, I will always remember the program and Lisa Hurwitz for all her help. I will especially remember dorm life and how it felt to be on my own.

Devin Meyer

During the past two years, I have been able to grow tremendously in my ability to live independently and progress from not being able to find where my classes and work-site were to doing well at both. I also became more confident in my ability to take a leadership role in my work-site job.

I would like to thank all of my friends for keeping me company here, such as Jon, Jacqueline Surmeier, Raymond, Susan, Karen, Andy and many others. I will miss them all very much! I would like to thank all the teachers who helped me out with my schoolwork when I was having trouble with it. I would also like to thank my family for giving me their support by helping me deal with everything here. Good-bye everyone!

Karen Pratt

My two years at Threshold have been really neat for me because I've learned more about myself. I really like being on my own. I've made a lot of friends.

I would like to thank my family for everything. I would like to also thank Jennifer Campana for putting up with me and for all the fun times we had together. Jennifer will always be my best friend, no matter what. Thanks also to Kim Dobbie, Jodi, Paul and everybody else.

Susan Schmidt

I really enjoyed being here at Threshold for two years. I feel I've learned a lot and grown a lot through my classes, the teachers, and my social life. My teachers were very helpful. I'll miss them all. Barbara, I'll miss you especially. You were my favorite teacher.

I enjoyed being in the writing class. It helped me to express myself better in writing and in trying to talk more. I want to thank Janet and Suzanne for our talks. I want to thank my mother for sending me to a great program.

I feel more open with people and myself now. I made friends here, which makes me feel good. I want to thank Kathy K., Marie, Kim D., and Jacqueline Surmeier for being there for me and for their support. I'll miss them. Being at Threshold made me feel special. It has made me feel important and independent. Thanks for everything.

Jacqueline Surmeier

In the two years that I have been here at Threshold, I feel that I have learned good independence skills. I feel that when I graduate, I will not need my parents as much as I did when I first came here. I also don't depend on my friends to help me as much now.

I would like to thank my parents for their support and help through my two years here.

Lily Szeto

When I first came to Threshold, I was scared. I didn't know anyone here, like the staff or the other students. It was the first time that I had been away from home and my family. After a few days here, I made several new friends. We got together to do fun things like go to Harvard Square for pizza and shopping.

I have learned a lot while here at Threshold. I have grown up and have had many good experiences. As a second-year student, I enjoyed myself even more. Living in the apartment taught me how to cook and live on my own. Most of all it taught me how to live and get along with other people.

Thank you to Arlyn, Suzanne, and Janet for your help. I will miss everyone next year, but I will come back and visit. Also thank you to my tutor, Cheryl, who always helped me out and was there to talk with me. Good-bye and good luck to everyone at Threshold.

Lee Tolbert

Threshold means a lot of different things to different people. What is most important to me is what I have learned in the Understanding Learning Disabilities and Social Skills courses. I learned more about myself and how others relate to me. I also learned, thanks to these courses, about my strengths and weaknesses, not to mention coping techniques. Thanks to the program I have gained more of an understanding of my employment future. I have also gained more of an understanding of what it means to live in a city. I have learned that I'm continually growing and learning.

Nicole Warner

I would like to thank all the teachers here at Threshold. I've learned a lot. The time here has gone by so quickly. It seems like just yesterday that I first came to Threshold. Now I'm getting ready to live on my own and deal with people in a positive way. Threshold helped me to understand what learning disabilities are and helped teach me strategies to accomplish things despite them.

I'd especially like to thank my parents and family for all the moral support they've given me. A special thanks to Jeff for giving so much individual attention in art class. You are great, Jeff. I'd also like to thank my friends Nikki, Kim D., Jennifer M. and Marty. Most of all, I'd like to thank Lee for being there when I needed someone to lend a listening ear. I will miss everyone I became friends with this year.

To the first-year students: I know you will succeed. I will keep in touch and visit.

## With Children

### Children

Children are like a brand new day.  
Like new leaves on a tree, they haven't lived their lives yet.  
Children, like light bulbs, are bright and always on.  
Like a continually filling gas tank, they're never empty.  
With the curiosity of cats, they love to discover.  
Like busy bees, they are out of one thing, into another.

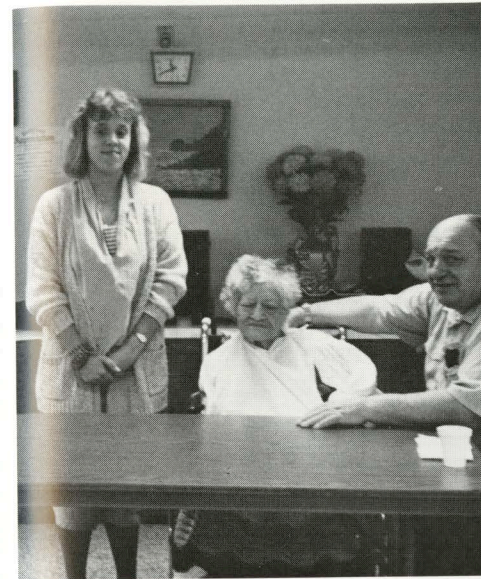

While children can be as sweet as honey,  
they can also be as noisy as a moving train,  
like insects always bothering you,  
or like the IRS, always taking something from you.  
Children are like 7-11 stores. They are always open.  
Like some computer programs, they ask one question after  
another.

They are like rabbits running all over the place.  
Like fast food restaurants, they are everywhere.  
Like a horse race, the outcome is unexpected.  
Children, like time, continually change.  
They can be like clowns making you laugh  
or like ballet dancers full of style and grace.  
Children are like foreign lands.  
There's always something new to explore about them.

Working at the United Cerebral Palsy center in Watertown has been an indescribable experience. How can I possibly even begin with the list of clients that I work with? They are almost all in wheelchairs, but each one has his or her own individuality.

We have learned a lot of new signs in the Sign Language Club. It's exciting to learn new things. Some of the signs are complicated but some are easy. When I do learn a lot, I'll be happy to help deaf children and adults communicate so they won't feel left out.

My first days at Lesley College were a giant step for me, and everything changed in a positive way. You can easily have as much fun here, and you can feel as comfortable as you were at home. It turned me pink with happiness to have my first birthday in another state away from my parents and with many friends. That was an independent age of nineteen.

Carlee McLaughlin

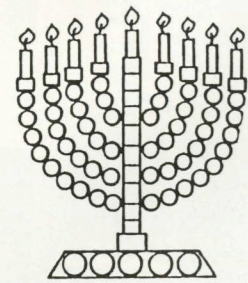

Living in the dorms was a really great experience for me. I was always developing friendships. Having support from friends and sharing experiences with them means a lot to all of us at Threshold.

The thing that I have noticed at Threshold is that everyone cares about one another, and they understand others' feelings. I was really nervous about coming here and I thought people wouldn't like me, but I learned that they do, and I learned to trust people.

The Threshold Program is a vital component of the educational progress at Lesley College. The staff is committed to guiding students toward independent living with love and understanding. The students, while learning to live with their disabilities, grow in self-esteem. We all at Lesley College have learned to value learning and caring more from our interaction with the Threshold Program. My best wishes to all of you.
