1993

**T**he 1992 Fall Orientation program welcomed new students to Lesley College in early September. As families and friends said goodbye, Lesley College said hello. The Orientation Committee members helped new students move in and feel comfortable, and answered any questions that they had. New friendships were formed during the four and a half day program through activities such as the trip to Hale Reservation, Tribal Rhythms, and the skit rehearsals. Finally, the program was a time for new students to focus on challenges and choices facing young women in the 1990s. To these new Lesley students, the Orientation Committee said Good Luck!

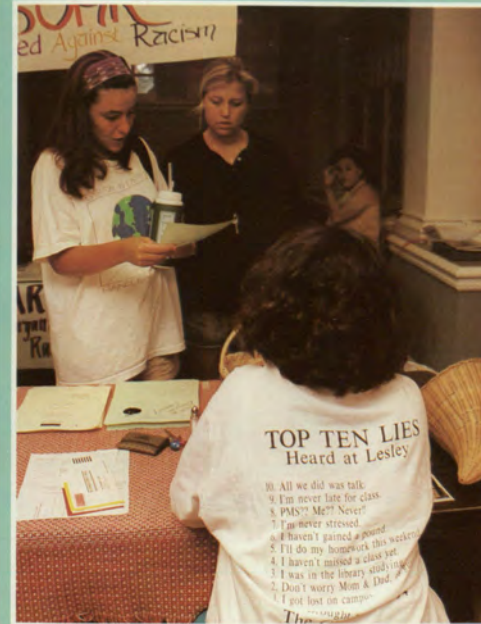

*Lesley was our home away from home. That feeling had nothing to do with where we lived but with whom we lived. We depended on each other.*

*"Neither a lender nor borrower be" was never heard. We lived by the old adage of "what's mine is yours and what's yours is mine." Our doors were always open and friends were always home. We celebrated when we were happy, stressed together when necessary, and cheered each other up when we were sad. We became a family.*

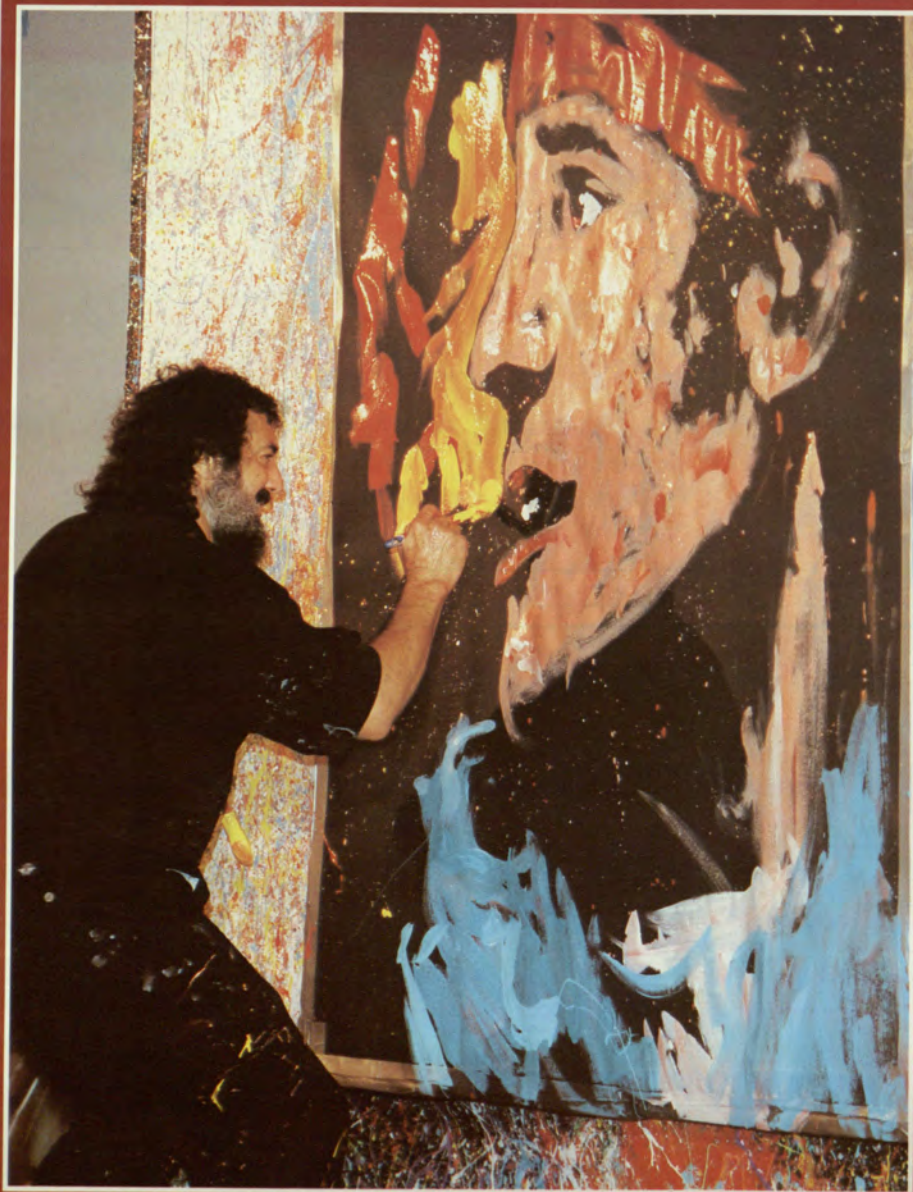

*Class and Club Fair Day was held in September to introduce students to the variety of ways to become involved on campus. The event showcased and informed students about the many clubs and organizations on campus. The Yearbook, SOAR (Society Organized Against Racism), Hillel, and the new club The Third Wave were just a couple of the organizations represented at the event.*

*“Be productive, be creative, be passionate about something or make or create something. You’ve just got to be you with all of your heart.” These were the inspirational words of artist Denny Dent.*

*Denny Dent was one of the biggest attractions at Lesley College in the Fall. He combined the music of John Lennon, Bruce Springsteen, and Billy Joel to create his vibrant works of art. His performance filled the seats in Welch Auditorium and his presentation created a powerful energy in the room.*

*The development of a student is greatly enhanced by a deliberate and thoughtful combination of academic and co-curricular pursuits.*

*The College encourages each student to take full advantage of her time at Lesley by participating in those co-curricular activities united to her own special interests.*

*As students we spent approximately 210 hours a semester in the classroom. During that time, we attended small classes and addressed most of our faculty on a first name basis. Along with the academic work, we were required to spend a number of hours in our placements. These placements were in the classrooms, courts, daycare centers, human service agencies, and businesses big and small. We made no money but the experience we gained was immeasurable. These combined academic and internship experiences gave us knowledge to be the very best that we could be.*

## Saying Goodbye

Before I begin, I would like to thank the class of 1993 for giving me this honor. I would also like to thank all of the faculty who have helped us along the way. But most of all, I would like to thank all of our friends and family for being here tonight and for giving us so much support throughout the years. Thank you to all.

This is the hardest speech that I've ever had to write. No paper in the last three years compares with this speech. Mary Norberg told me to write what's in my heart, but she didn't tell me what to do if what's in my heart is enough to fill ten pages. I've been spending a lot of time thinking about what I was going to say tonight. I guess I've always known what I was going to say, I just didn't know how. I've never liked saying goodbye.

As I was thinking about how to say goodbye, I thought about all that we have experienced, together, here at Lesley. These past few years have been very special and unique. We will never again be undergraduate Freshmen. We will never again sit up until one a.m. and order out together. We will never again cram for tests together. All of you in the audience may be thinking, who would want that again? It's not that we want to be Freshmen or cram for tests all over again. It's just that we're going to miss doing those things together.

Thinking about all of that made me a little sad. But then I thought, after we graduate we can change the world together, we can make a difference together, and one day we'll have a reunion and then we can sit in our rooms, talk until one a.m. and order out together, all over again. I guess what I'm saying is this is a goodbye speech but this goodbye is not forever. There's so much more of life to live and I know that it's going to be good. Being able to carry all of the friendships we've made and the experiences we've had with us, will only make it that much better.

You are a very special group of young women. I'm very glad that I got the chance to spend this short amount of time with you. In a way, I wish we had more time together, but in my heart I know that more time wouldn't make our experience better because we have had the best.

I would like to leave you with a poem by Ralph Waldo Emerson. It's called, "How Do You Measure Success?"

**'To laugh often and much. To win the respect of intelligent people and the affection of children. To earn the appreciation of honest critics and to endure the betrayal of false friends. To appreciate beauty. To find the best in others. To leave the world a bit better, whether by a child, a garden patch, a redeemed social condition or a job well done. To know even one other life has breathed easier because you have lived ... This is to have succeeded!'**

You, Class of 1993, are some of the most successful people I have ever met. Keep growing, keep succeeding, and in essence keep being yourselves. Thank you.

Linda Jenkins '93

## Highlights from the Senior Investiture Speech 1992

First off, let me dispense with protocol and welcome all of you to Senior Investiture, this academic rite of passage, and especially to welcome and congratulate the Senior class of 1993. Thank you for having chosen me as your faculty speaker, and thanks to President McKenna for lending me a legal hood.

Tonight, for the first time, all of you and all of us, those who occupy the other side of the desk, are meeting in an equal level of *disguise or costume*, and I use the word *disguise*, since without my doctoral robes no one on the street or on the subway would know my vocation, the same way in May no one will know you have graduated from Lesley College, except to see you in your robes, or perhaps to see the look of relief on your faces.

We are not the first women to attempt careers/vocations in a world whose original scholars were men, yet in the Judeo-Christian tradition it is Eve who is tempted to eat from the Tree of Knowledge of Good and Evil in order to think like God. What would have happened if the serpent had talked to Adam? We might still be in Eden doing very little besides naming animals and staring at the two forbidden trees. So, if women did and do desire knowledge and were not allowed to think/work in male professions, *although they were tempted*; the solution would be to dress and act like men, to disguise themselves in order to infiltrate the male world and its professions.

We do not live in a magical place, but in the real city, and I am certainly not telling you that by putting on black academician's robes, with your well earned degrees, you are going to "make right" a troubled world. My message is simple, I hope that I have been a good teacher, and that in your four years at Lesley you have learned how to join and change a world which has better places for women than the ones offered to our 15th century counterparts: now you can be a Doctor of Law, a Doctor of Letters, a Doctor of Medicine, a Doctor of Philosophy, a Doctor of Education, a Master of Arts, the list is very long, and play a part in working for a better future, while not having to disguise yourself, at least not farther than these robes which we do not wear very often.

I leave you with two thoughts:

One: That on November 3rd you exercise your right to vote in the Presidential election, because voting is a privilege that has not always been ours, and Two: that you allow me to play dramaturg and change two words in Shylock's speech. I've inserted the word *woman* to replace *Jew* and the word *man* to replace *Christian*.

*I am a woman. Hath not a woman eyes?*

*Hath not a woman hands, organs, dimensions, senses, affections, passions; fed with the same food, hurt by the same weapons, subject to the same diseases, healed by the same means, warm'd and cool'd by the same winter and summer as man is?*

*If you prick us do we not bleed? If you tickle us, do we not laugh? If you poison us, do we not die?*

*And if you wrong us, shall we not revenge?*

*If we are like you on the rest, we will resemble you in that.*

*If a woman wrong a man, what is her humility?*

*Revenge.*

*If a man wrong a woman - what should his sufferance be?*

*Why revenge.*

*the villainy you teach me, I will execute and it shall go hard, but I will better the instruction.*

## Family And Friends Weekend

Family and Friends Weekend focused on bringing faculty, staff, families, and friends closer together. It was yet another way in which Lesley strove to create its close knit family. The highlight of this year's weekend event was the Talent Show. Students, faculty, and staff worked hard to put the performance together and the end result was an excellent show.

President McKenna and her son David enjoy meeting the family and friends.

Daughter and mother enjoy their reunion.

Faculty and guests enjoy a good joke.

All dressed up and looking beautiful.

We don't want to grow up! It's off to Never Never Land.

What is your wish?

Has anyone seen my mother?

"Ooh, la, la ... let's go dancing."

Behold! What a feast!

It's late and we are sleepy,  
The air is cold and still.  
Our jack-o-lantern grins at us  
Upon the window sill.

We're stuffed with cake and candy  
And we've had a lot of fun,  
But now it's time to go to bed  
And dream of all we've done.

We'll dream of ghosts and goblins  
And of witches that we've seen,  
And we'll dream of  
trick-or-treating  
On this happy Halloween

## Equality

You declare you see me dimly, through a glass which will not shine,  
though I stand before you boldly, trim in rank and marking time.

You do own to hear me faintly, as a whisper out of range,  
while my drums beat out the message and rhythms never change.

Equality, and I will be free.  
Equality, and I will be free.

You announce my ways are wanton, that I fly from man to man,  
but if I'm just a shadow to you, could you ever understand?

We have lived a painful history, we know the shameful past,  
but I keep on marching forward, and you keep on coming last.

Equality, and I will be free.  
Equality, and I will be free.

Take the blinders from your vision, take the padding from your ears,  
and confess you've heard me crying, and admit you've seen my tears.

Hear the tempo so compelling, hear the blood throb in my veins.  
Yes, my drums are beating nightly, and the rhythms never change.

Equality, and I will be free.  
Equality, and I will be free.

I needed to go, to see, to do, in another part of our country. Where it is warm and the talk is slow. I left behind my wrist watch and drove to Houston, Texas. Student teaching was everything, and nothing that I ever imagined. The people of Spring ISD took me in and made me feel welcome. A family took me in their home and for that I will be forever grateful. Coming back to Lesley, I had gained a different perspective. I am excited to be graduating but at the same time I am terrified. This place too has been my home. I'm just not sure whom to call mom here.

Lesley College expanded its sports program by adding two new intercollegiate sports - tennis and cross-country. Soccer also evolved from a club sport to a varsity sport. Cross-country faced a competitive schedule travelling to many large invitational meets. The small but dedicated team, led by Captain Kristen Hatcher, showed great improvement throughout the season. Tennis also fared well in its inaugural season. With many underclasswomen on the team the strength of the tennis program will continue to grow. Although the soccer team was faced with injuries this season, they managed to rise above them and make a difficult transition from a club to a varsity team playing a very competitive schedule. Co-captain Suzanne Hamel was the leading goal scorer with 10 goals. The 1992 sports season was an exciting time as Lesley College entered the arena of intercollegiate athletics.

# Lesley women are always on the move. They have places to go and things to do.

The things that we have done at Lesley cover the spectrum. Whether we are enjoying friends, Cambridge, or Lesley life we always do it with a flair ... A Lesley flair.

All dressed up and no place to go.

Sleepwalking to class with an attitude.

Hi Ho. Hi Ho! It's off to work we go.

Going off to face the bright future.

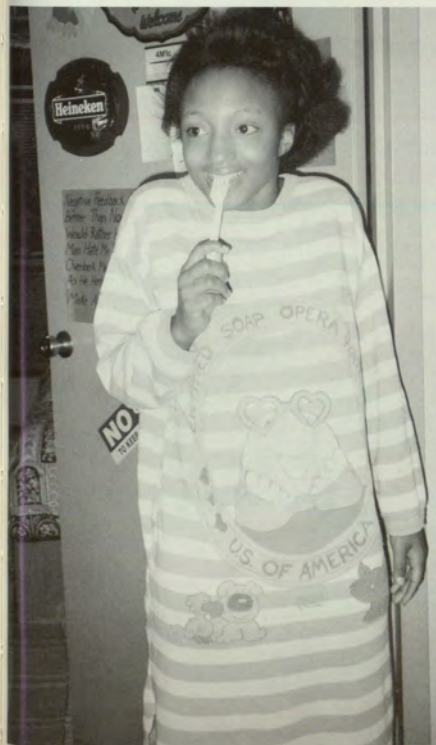

Secrets of women on the go.

Two Lesley students enjoying the Head of the Charles.

Contemplating life after Lesley here and abroad.

Going to the ultimate extremes.

The future's so bright, she has to wear shades.

Having a snack before going to bed.

places you wanted me to go and things you wanted me to see.  
Then I learned how to crawl and then started to walk  
upright. Even so, I still held your hand very tight.*

hard for you and you tried not to let it show.*

side.*

*So thank you for dreaming your dreams and helping me  
realize mine.*

*Thank you for holding my hand and letting go when it was  
time.*

Whatever life has to offer, we will grab onto with both hands. We are not afraid to fail, take chances, or make mistakes. We are not afraid to live!

## Sharing the Good Times!

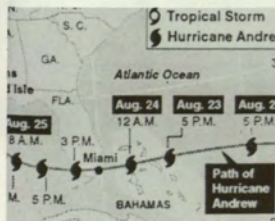

What we will miss most, as we leave Lesley, is the knowledge that we are leaving a place that holds our fondest memories. It is the place where we have met our best friends.

## The End of the Road

How do I say goodbye to what we have?  
The good times that made us laugh,  
I wish them back.

I thought we gave to see forever,  
but forever gone away.  
It's so hard to say goodbye to yesterday.

I don't know where this road is going to lead.  
All I know is where we've been and what we've been through.  
And if we gave to see tomorrow, I hope it's worth all the wait.  
It's so hard to say goodbye to yesterday.

I'll take with me the memories to be my sunshine after rain. It's so hard to say goodbye to yesterday.

It's So Hard to Say Goodbye to Yesterday

# Goodbye

"This little light of mine, I'm going to let it shine!"  
Thank you for being our role models, our inspiration, our light.

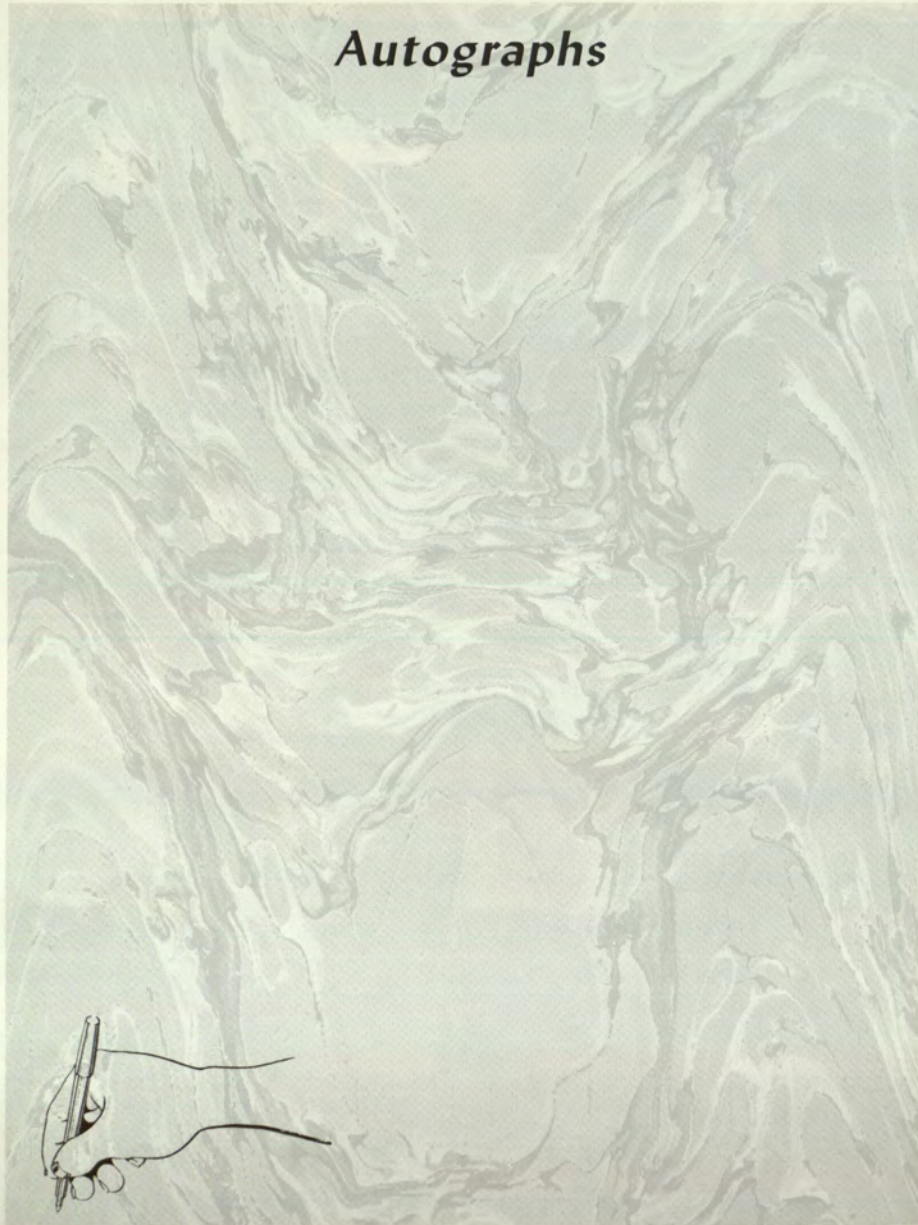

Our time with the yearbook is over. Your faces helped us create an award winning book. There are surprises waiting on every page, so take time and enjoy them. Before we sign off we would like to thank Jennifer Kilson-Page (Advisor) and Elisa Lucozzi (Co-Advisor). They gave us guidance but let us run with our ideas. David Roth (Yearbook Publisher) gave us encouragement and pep-talks every step of the way. We followed his advice and took it one step at a time. Finally, extra thanks go to Stephanie Silverman, Victoria Furci, and Jayshree Ramani. We would like to leave you with a little game. It's your job to find Penny, Linda, Elisa, Jennifer, and David. It's called "Where's the yearbook staff?" Good luck and thanks again!

A wish of success to you all,  
Linda Jenkins and Penny Alexander  
Yearbook Co-Editors.
